

Donors and Sponsors Coordination Wing

Introduction

The aim of D&SCW is to ensure coordination, evaluation, negotiation, approval, implementation and monitoring of foreign funded development projects worth over 1 billion US Dollars in 12 different socio-economic sectors in the earthquake-affected areas of Pakistan and Azad Kashmir. The wing has direct contribution at every stage of the project cycle; from need assessment to feed back and rearranging of funding priorities for the desired impact.

Objectives

- To facilitate Donors & Sponsors through “One Window Operation” for rationalized geographical deployment;
- To match the sponsor’s preference consonant to location and sector to avoid duplication;
- To maintain liaison with Donors and Sponsors for smooth implementation of the Reconstruction and Rehabilitation projects;

Coordination Mechanism

The Donors and Sponsors Coordination Wing, being the focal office for Negotiation & Coordination with development partners; has devised a potent coordination mechanism through which data appraisal & monitoring of the projects are being carried out.

Considering the efficient working mechanism & minimum procedural requirements, performance of ERRA sponsorship program has remained exceptional for the last 3 years in terms of quality, progress & time.

In addition to the infrastructure development (hardware) component our development partners pledged many software projects (non infrastructure development projects) relating to Education, Health, Livelihood, Social protection, Gender Issues & Disaster Risk Management.

The cell has been successful in reducing financial load on Govt. exchequer by securing the sponsorship of projects worth 1 Billion US \$ approximately.
