

Registration Procedure for Contractors and Operators

To obtain registration with PEC as constructor / operator one must meet the registration criteria for the category in which registration is applied for. Both Pakistani & Foreign Constructors / Operators can obtain PEC Registration by applying on the Prescribed Forms available from all PEC offices. Before filling in this form, it is recommended to see Engineering Works Bye Law 4 and Bye Law 8 . After filling in this Form according to the instructions given at the end of Form, it should be submitted at one of the PEC offices along with the documents required and the prescribed fee for the category applied for.

The application cases are then scrutinized and information given by the applicant is verified by PEC. If no discrepancies are found, the Enrolment Committee makes decision to register the applicant. Thus, a License /Enlistment Certificate is issued to the Pakistani / Foreign Constructor / Operator.
